SUMMARY

I am a dedicated Front-End Developer and Mobile Developer with over 6 years of experience, specializing in interactive, user-centered web applications, particularly React.js and Next.js. Skilled in delivering dynamic, responsive interfaces and optimizing applications for superior performance. With a full-stack JavaScript approach, including proficiency in TypeScript, I contribute across the software development lifecycle, from planning to deployment, collaborating effectively with cross-functional teams. Known for crafting high-quality, maintainable code and blending a strong UI/UX sense with technical expertise, I focus on building visually engaging, functional, and scalable digital experiences.
